
Dr Megan Eve

BSc (Hons), PGDip, DCLinPsy, QiCN, CPsychol

Clinical Psychologist & Neuropsychologist

Health Professions Council Registration: **PYL28498**

British Psychological Society Membership: **228309**

PROFILE

- Highly experienced Clinical Neuropsychologist specialising in paediatric acquired brain injury and neurorehabilitation, with extensive NHS and independent practice experience across acute, outpatient, and community settings.
- Specialist expertise in paediatric neuropsychological assessment, formulation, and intervention, including interpretation of complex neuropsychological findings to inform rehabilitation, education, and multidisciplinary care.
- Clinical experience working with children and adolescents with neurological illness, chronic illness, chronic pain, and functional neurological disorders.
- Currently developing an expert witness practice, providing independent neuropsychological opinion within areas of established clinical competence, with clear separation between treating clinician and expert roles.
- Experienced supervisor, lecturer, and trainer, with a strong background in multidisciplinary working and postgraduate teaching.

AREAS OF SPECIALISM

- Acquired brain injury in children and young people
- Neuropsychological assessment
- Cognitive, behavioural, emotional and social consequences of brain injury
- Rehabilitation needs following brain injury
- Multidisciplinary rehabilitation and care recommendations
- Neurodevelopmental disorders
